NEWS RELEASE

PELANGIO EXPLORATION COMPLETES FINAL TRANCHE OF PRIVATE PLACEMENT

THIS NEWS RELEASE IS INTENDED FOR DISTRIBUTION IN CANADA ONLY AND IS NOT INTENDED FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

TORONTO, Ontario (August 30, 2017) – Pelangio Exploration Inc. (PX:TSX-V; OTC PINK:PGXPF) (“Pelangio” or the “Company”) is pleased to announce that it has closed the third and final tranche of its non-brokered private placement originally announced July 6, 2017 and increased in size on August 1, 2017 (the “**Private Placement**”). This tranche has raised a further \$55,500 for the issuance of 1,110,000 units (the “**Units**”) at a price of \$0.05 per Unit. In total, \$579,000 were raised in the Private Placement for the issuance of 11,580,000 Units.

Each unit consists of one common share of the Company (a “**Common Share**”) and one Common Share purchase warrant (“**Warrant**”). Each Warrant entitles the holder to purchase one Common Share at a price of \$0.07 per share until July 31, 2020. In the event that the Common Shares trade on the TSX Venture Exchange at a volume weighted-average price of \$0.14 or more per Common Share for any period of at least ten consecutive trading days after July 31, 2017, the Company shall be entitled to accelerate the expiry time of the Warrants to a date that is at least thirty days from the date that written notice of such acceleration is provided to the holders of the Warrants by way of news release, with the new expiry time specified in such notice.

The Company paid a finder’s fee to Leede Jones Gable Inc. in the amount of \$2,040 in cash and 40,800 non-transferable finder’s warrants, with each such warrant entitling the holder thereof to acquire one Common Share at a price of \$0.05 per share until July 31, 2020, subject to acceleration as described above.

All securities issued in this final tranche of the Private Placement are subject to a statutory hold period expiring on December 31, 2017.

An officer of the Company participated in the Private Placement, acquiring 600,000 Units, which constitutes a “related party transaction” for purposes of Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions (“**MI 61-101**”). The Company has relied on the exemptions contained in sections 5.5(a) and 5.7(1)(a) of MI 61-101 from the valuation and minority shareholder approval requirements in MI 61-101 in respect of such officers’ participation in the Private Placement, since neither the fair market value of the subject matter of, nor the fair market value of the consideration for, such officer’s investment, exceeds 25% of the Company’s market capitalization.

The Company intends to use the total proceeds from the Private Placement to begin the planned \$2,000,000 multi-phase exploration program and for working capital purposes, all as further described in the Company’s news releases dated July 6 and August 1, 2017. All additional proceeds above \$500,000 will be used for working capital purposes.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the securities in any jurisdictions in which such offer, solicitation or sale would be unlawful. Any offering made will be pursuant to available prospectus exemptions and restricted to persons to whom the securities may be sold in accordance with the laws of such jurisdictions, and by persons permitted to sell the securities in accordance with the laws of such jurisdictions.

About Pelangio

Pelangio successfully acquires and explores camp-sized land packages in world-class gold belts. The Company primarily operates in Ghana, West Africa, an English-speaking, common law jurisdiction that is consistently ranked amongst the most favourable mining jurisdictions in Africa. The Company is exploring three 100%-owned camp-sized properties: the 100 km² Manfo Property, the site of seven recent near-surface gold discoveries, the 264 km² Obuasi Property, located 4 km on strike and adjacent to AngloGold Ashanti’s prolific high-grade Obuasi Mine and the early-stage 159 km² Akroma Properties, which includes the Dormaa and Wamfie concessions.
